Lab 6 | Using Vim

Question 2

```
 ⊞                                    miguel@miguel-VirtualBox: ~                    Q   ≡   —  ⊡  ✕
# What is Linux?
Linux is a family of open-source Unix-like operating systems based on the Linux kernel, an operating syst
em kernel first released on September 17, 1991, by Linus Torvalds.
# 3 Reasons to use Linux:
* Reason 1: It is an open source OS
* Reason 2: You can customize whatever you want in the OS to fit your needs
* Reason 3: It can run on any hardware
